PREJUDICE OF THE PRESS OVER-COME.

OFFICE OF THE SENECA CO, "HRBALD," Bioomville, Ohio.

Gentlemen.-You can count me as a convert to Thomas' Eclectric Oil. When your agent came into my office to advertise your medicine, I classed it with the thousand and one nostrums bawked about the country and sold as cure-alls. For fifteen or twenty years I have been suffering with that terrible disease, Catarrh; had lost my sense of smell and taste, also my sight and hearing was fast failing. I had previously tried scores of advertised remedies, but found only temporary relief. Last fall I concluded to give your Eclectric Oil a trial. After using part of the first bottle I began to feel better. So I kept on using it every night before retiring. I am now most happy to say I am near-ly cured, and feel better than I have for ten years. Some time ago I felt a pricking sensation under one of my thumb nails. I could not imagine what caused it. It felt as if a piece of needle was under the nail. I tied up my finger with a rag, freely saturating it with the Oil; the pain ceased and in a few days a black spot make its appearance and gradually increased until a new nail grew on. These are facts volun-tarily given, even against a former prejudice concerning Patent Medicines.
You can use this testimony as you see fit. If it will do any good in getting suffering humanity to try your medicine and it relieves others as it has me, they will feel thankful.
